## 1. Introduction to Chameleon Mobile Theme

Chameleon is one theme, providing eight awesome mobile & tablet looks for your store. Every single detail of mobile device's Chameleon user interface is developed for a user to get the best browsing experience on the go. The theme complies with Magento 1.7 mobile standards and is running on various mobile platforms like iPhone, iPad, Android, Windows Mobile, Blackberry, etc. Simply select the theme color and enjoy the great transformation happening.

### Key features

- 8 styles for admin to pick from
- Smart browsing
- User-friendly interface
- Simple catalog navigation
- Multipage support
- Large fonts and buttons on product pages for better touchscreen experience

### Other specs.:

- Easy to change design and layout
- HTML 5, CSS 3, JavaScript
- Attractive slider on the homepage
- Sliding main menu
- Device rotation support
- Smooth navigation between categories
- Easy “shop by” configuration on category pages
- Product images slider

- Products reviews and ratings
- Wishlist
- Expanding footer links
- User-friendly search and results display

In the admin panel, select one of several Chameleon designs: Ivory White, Charcoal Black, Sunset Red, Emerald Green, Midnight Blue, Sky Blue, Magenta Pink and Chocolate Brown. The theme detects the type and OS of any mobile gadget and automatically sets the appropriate resolution, size of UI elements and orientation for the device, so when the desktop user works with basic version of the website, the mobile user sees the mobile one.

## 2. How to Install and Configure

### Step 1.

Open up your ZIP-file and copy the whole "app and skin" - folders on the main root of your local Magento server (you will need to merge these files).

### Step 2.

Log in to your Magento Administration and go to **System** -> **Configuration**. Select your store. Inside the **Configuration** section, go to **Design**.

At every tab you should click "Add exceptions". There you should enter mobile devices and Theme for them.

Here is the field content of the "Matched Expression" (you may add other mobile devices).

Android|Webos|iPhone|iPod|iPad|Blackberry|Mobile

In the field "Value" you should enter the name of Mobile Theme (**chameleon**).

As a result you should have the following screen.

**Themes**

Translations  [STORE VIEW]

Templates  [STORE VIEW]

Matched Expression	Value	
Android Webos iPhon	chameleon	Delete
		Add Exception

▲ Match expressions in the same order as displayed in the configuration.

Skin (Images / CSS)  [STORE VIEW]

Matched Expression	Value	
Android Webos iPhon	chameleon	Delete
		Add Exception

Layout  [STORE VIEW]

Matched Expression	Value	
Android Webos iPhon	chameleon	Delete
		Add Exception

Default  [STORE VIEW]

Matched Expression	Value	
Android Webos iPhon	chameleon	Delete
		Add Exception

### Step 3.

Refresh Cache in **System -> Cache Management**.

Select all options. Then refresh your cache. Refresh will refresh your cache. We recommend disabling your cache when installing your theme and re-enabling it after you are done with installing.

Cache Type	Description	Associated Tags	Status	
<input checked="" type="checkbox"/>	Configuration	System(config.xml, local.xml) and modules configuration files(config.xml).	CONFIG	DISABLED
<input checked="" type="checkbox"/>	Layouts	Layout building instructions.	LAYOUT_GENERAL_CACHE_TAG	DISABLED
<input checked="" type="checkbox"/>	Blocks HTML output	Page blocks HTML.	BLOCK_HTML	DISABLED
<input checked="" type="checkbox"/>	Translations	Translation files.	TRANSLATE	DISABLED
<input checked="" type="checkbox"/>	Collections Data	Collection data files.	COLLECTION_DATA	DISABLED
<input checked="" type="checkbox"/>	EAV types and attributes	Entity types declaration cache.	EAV	DISABLED
<input checked="" type="checkbox"/>	Web Services Configuration	Web Services definition files (api.xml).	CONFIG_API	DISABLED
<input checked="" type="checkbox"/>	Web Services Configuration	Web Services definition files (api2.xml).	CONFIG_API2	DISABLED

### Step 4.

Go to **System -> Configuration -> BelVG extensions -> Chameleon Color Changer**. Select your current theme color and save the selection.

This module was developed by [www.BelVG.com](http://www.BelVG.com). For docs & examples refer to the BelVG [web site](#). We have the largest selections of [extensions](#) and [themes](#) on Magento.

Current Theme Color: Charcoal Black [STORE VIEW]

- Charcoal Black
- Ivory White
- Sunset Red
- Emerald Green
- Midnight Blue
- Sky Blue
- Magenta Pink
- Chocolate Brown

## How to install the interakting slider

1. If the interakting slider is not active, install it with the help of Magento Connect Manager.

You can download the slider on [Magento Connect](#).

2. Create a static block in the admin panel with identification: slider
3. Insert the following code into the static block

```
{{block type="interaktingslider/interaktingslider" name="interaktingslider"}}
```

## How to make footer links expand

1. To make footer links expand, you should fill footer blocks with any content. In order to do so, go to **CMS -> Static Blocks -> Footer Links**

2. Default theme content looks like this:

```
<ul>
```

```
</li>
```

```
<a href="{{store url=""}}about-magento-demo-store">About Us</a>
```

```
</li>
```

```
<li class="last">
```

```
<a href="{{store url=""}}customer-service">Customer Service</a>
```

```
</li>
```

```
</ul>
```

The example below illustrates content that will make footer links expand:

```
<ul class="footer-usermenu">
```

```
</li>
```

```
<h3>About Us</h3>
```

```
<div>Lorem ipsum dolor sit amet, consectetur adipiscing elit. Morbi luctus. Duis lobortis. Nulla nec velit. Mauris pulvinar erat non massa. Suspendisse tortor turpis, porta nec, tempus vitae, iaculis semper, pede. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Morbi luctus. Duis lobortis. Nulla nec velit. Mauris pulvinar erat non massa. Suspendisse tortor turpis, porta nec, tempus vitae, iaculis semper, pede. Cras vel libero id lectus rhoncus porta.
```

```
<a href="{{store direct_url="about-magento-demo-store"}}">About Us</a>
```

```
</div>
```

```
</li>
```

```
<li class="last">
```

```
<a href="{{store url=""}}customer-service">Customer Service</a>
```

```
</li>
```

```
</ul>
```

**That's all!** Enjoy the **Chameleon Mobile Theme** performance.

### Disclaimer!

It is highly recommended to backup your server files and database before installing this module. No responsibility can be taken for any adverse effects installation or advice may cause. Recommended you install on a test server initially to carry out your own testing.
