1. Introduction to Color Status Order

The module allows setting custom background colors for order statuses in the admin panel. This helps merchant to quickly spot orders with specific statuses in the orders grid.

Key features

- Set custom colors to order statuses;
- Create custom colors for customers' order statuses;
- Set custom colors for order statuses in the admin sale grid.

2. How to Install Color Status Order Extension

Magento 2 provides a convenient way to manually install a module via composer. In case you got an extension from a provider like a zip-file, follow [this instruction](#).

Further run the following commands:

1. Enable module with `php bin/magento module:enable BelVG_ColorStatusOrder`
2. Run `php bin/magento setup:upgrade`
3. Recompile DI `php bin/magento setup:di:compile`
4. Recompile static files: `php bin/magento setup:static-content:deploy`
5. Flush cache `php bin/magento cache:flush`

3. How to Configure

Log into admin panel and switch to **Stores -> Order Status**. There you will find the grid with all order statuses registered in your store.

To set up a custom color click the required status in the grid to access status settings. Pick up the required color under the **Customize** section.

Edit Order Status

Pending PayPal	pending_paypal					

Colors assigned to order statuses will be displayed in a separate column

3. How to Use

Now lets see how the module actually works.

Once you are done with the settings switch to **Sales -> Orders**. All orders that have been assigned with specific colors will have their background coloured.
