### INTRODUCTION

#### **INSTAGRAM FEED**

**Instagram Feed** is a Magento 2 extension that allows placing Instagram widgets on any website page. You can specify the category, choose a separate page, or place the widget on all pages. The module improves the website's look and makes users closer to the brand.

#### **KEY FEATURES**

- Choose the page where to place the Instagram widget. You can specify the category, choose a separate page, or choose all pages with specific exceptions.
- Select the block on the page where to display the Instagram widget: you can choose any place on the page, e.g. footer, bottom or top of the main container, or header.
- Set up the number of photos to show on the page. You can show from 2 to 25 posts at once.
- Add the Title and Description of the Instagram widget. You can fully customize the look of the Instagram widget. setting up unique description and widget title on every page of the website

### INSTALLATION

## IN CASE YOU DOWNLOADED THE EXTENSION AS A ZIP-FILE, FOLLOW THIS INSTRUCTION.

Unzip the module archive

- Upload files to the server using the path *app/code/BelVG/InstagramFeed*
