INTRODUCTION

PRODUCT TABS

It is a Magento 2 extension to create and configure custom tabs on product pages. Default Magento tabs allow only three tabs - Description, More Information, and Reviews. They offer limited customizations and don't allow the creation of informative product pages.

The BelVG Product Tabs module provides more types of product tabs and significant customization options. Using the BelVG Product Tabs, merchants can transfer any information to the tabs, add visual content and widgets there, or hide some tabs from specific customer groups.

KEY FEATURES

- Create new tabs for all products, or separate products. You can add as many tabs as required.
- Remove Magento default tabs if needed.
- Choose any of two layouts available: simple layout or accordion one. When choosing accordion layout you can set all tabs to be open at once or only when the user is clicking on them.
- Display related products, and recommendations as Tabs, besides standard Magento blocks and customizable HTML block
- Add any type of content to the HTML block including videos, pictures, widgets, and variables.
- Specify the order of the blocks as required by product type.
- Create Product Tabs for specific customer groups, e.g. B2B customers.

INSTALLATION

IN CASE YOU DOWNLOADED THE EXTENSION AS A ZIP-FILE,
FOLLOW THIS INSTRUCTION.

Unzip the module archive

Upload files to the server using the path `app/code/BeIVG/ProductTabs`

Enable module with `php bin/magento module:enable BeIVG_ProductTabs`

Run `php bin/magento setup:upgrade`

Recompile DI `php bin/magento setup:di:compile`

Recompile static files: `php bin/magento setup:static-content:deploy`

CONFIGURATION

MODULE'S GENERAL SETTINGS

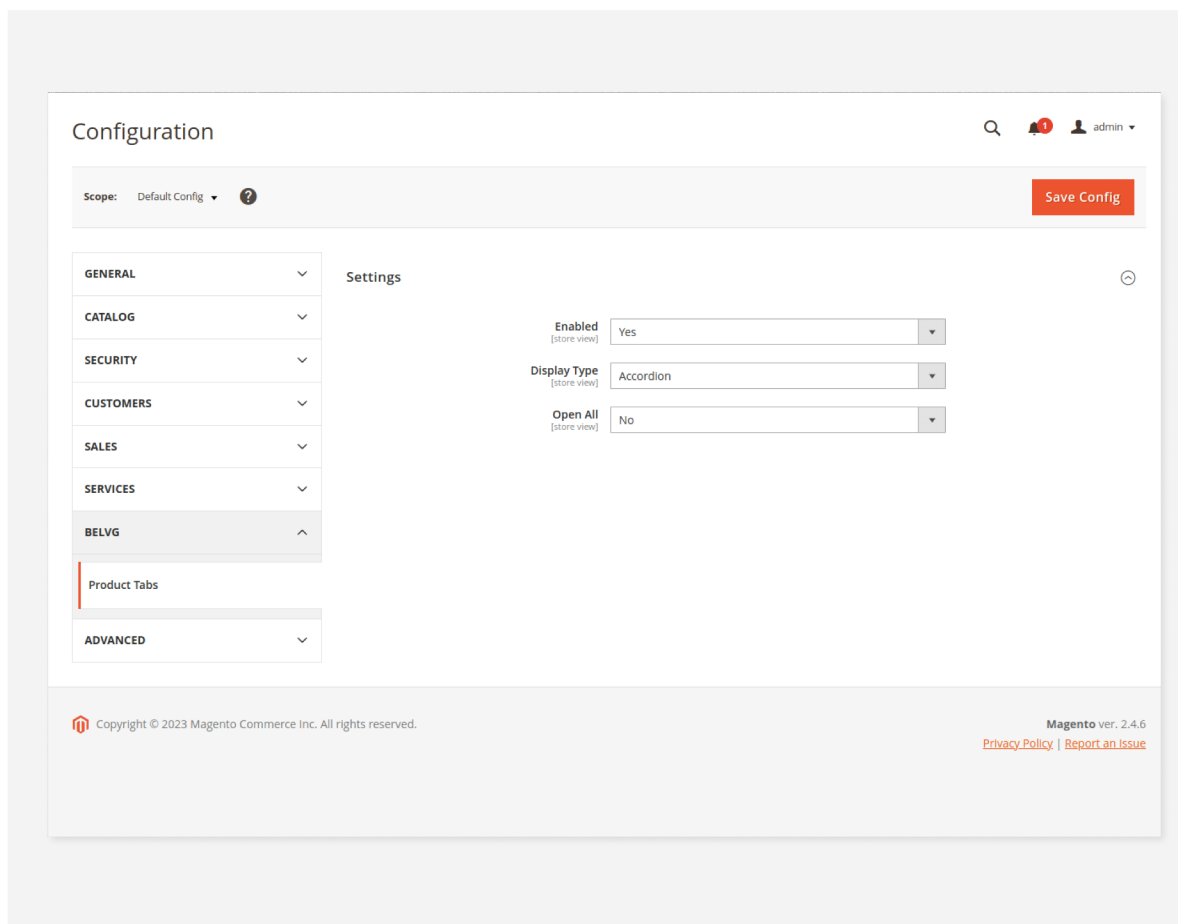

Note: The extension has been developed and tested only on the Luma and blank Magento themes, so the setting descriptions and screenshots provided in this manual may differ from those you may see if using some custom theme.

To activate the module log into the Magento admin panel and navigate to **Stores -> Configuration -> BelVG-> Product Tabs**.

GENERAL SETTINGS WILL INCLUDE THE FOLLOWING OPTIONS TO CONFIGURE:

Enabled: select **YES** to switch the module on.

Display Type: choose the preferred layout for product tabs - either as accordion or as simple tabs.

Details

Invalidate your yoga practice with this Deirdre Relaxed-Fit Capri, designed to let you move without strain or restriction.

- Heather gray capris with mint green waist & accents.
- Comfortable, relaxed fit with high rise.
- Moisture-wicking, 4-way stretch construction.
- Lined with mesh for better support.
- Hidden pocket at waistband.
- Flatlock seams and lined gusset for comfort.

More Information

| | |
|-----------------|---|
| Style | Capri |
| Material | Cocona® performance fabric, Rayon, Organic Cotton |
| Pattern | Color-Blocked |
| Climate | Indoor, Mild, Hot |

Open All:

this tab appears in case the accordion type of layout is selected in the **Display Type option**. Here, you may choose whether all accordion tabs should be open or closed by default.

CREATING NEW TABS FOR ALL PRODUCTS

MODULE ALLOWS CREATING CUSTOM PRODUCT TABS FOR ALL PRODUCTS BUT EXCLUDING SOME OF THEM IF NEEDED.

Go to **Catalog** -> **Tab Management** menu -> click **Add New Tab**.

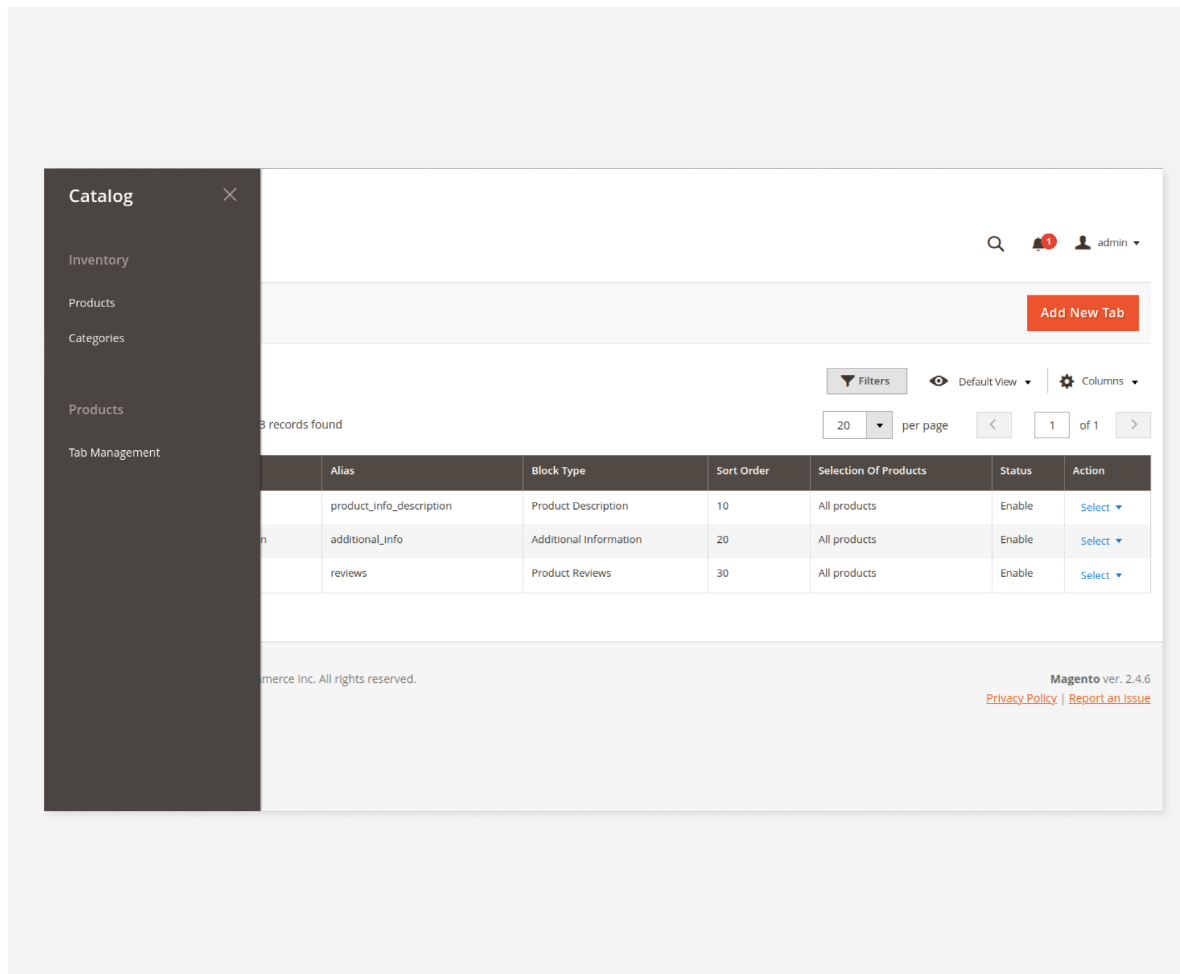

THIS WILL OPEN THE **TAB SETTINGS** MENU WHERE YOU NEED TO SET UP YOUR NEW TAB:

Enabled: select **YES** to enable the new tab.

Title: give a name to the new tab. This name will be applied on the frontend.

Alias: here you can specify any id that will be applied for this new block in HTML markup. If it is not specified, it generates automatically.

Block type: use the dropdown menu to select the type of block that will be applied for the new tab.

All Store Views

Main Website

Main Website Store

Default Store View

Block type:

Choose among

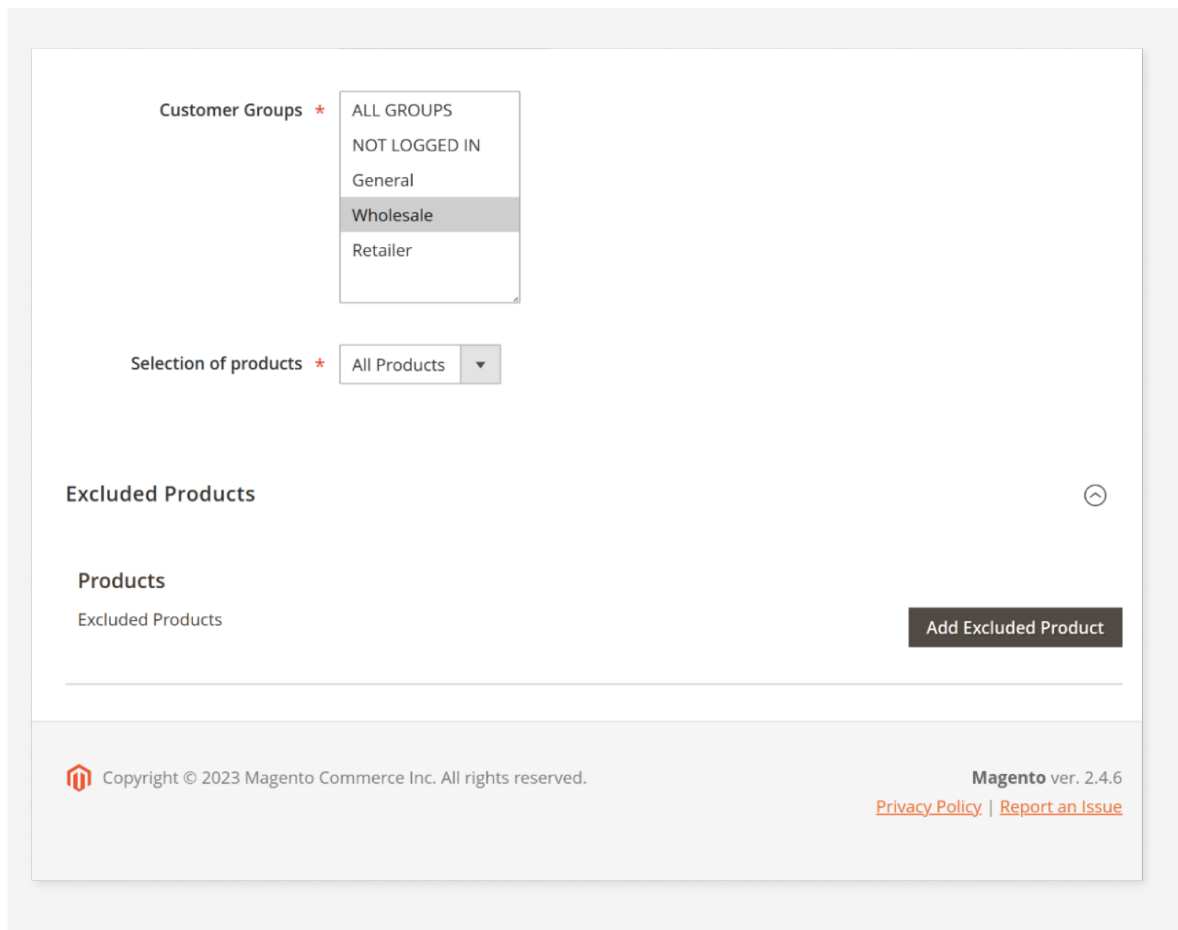

- Additional Information – includes additional information that the admin can edit in the product card.
- Product Reviews – these are the tab with reviews on the product and filed where users can leave their feedback
- We Also Recommend – the product appear here if the admin set up We also Recommend products
- Related Products – shows related products that the admin can set up.

Sort order:

specify the position of the tab relative to other tabs. Use simple numbers to set the position: the tab with the higher number takes the next position to the tab with lower number.

Store View:

select the type of the store view where the new tab will be available.

Customer groups: choose groups of customers that will be able to see the new tab.

Selection of product: choose All Products.

Excluded products: use this option to exclude specific items for the new tab.

**AFTER YOU ARE DONE WITH THE SETTINGS
CLICK SAVE TO CREATE YOUR FIRST TAB.**

CREATING NEW TABS FOR A SEPARATE PRODUCT

There are two ways to create a new tab for a separate product.

First one: For the first one, repeat the actions from the previous guide part Creating new tabs for all products, but choose **Individual** on **Selection of product** point. Then choose a required product from the list. You can delete this tab any time.

Second one: The second way allows creating new product tabs for a specific product from the **Product** menu.

The screenshot shows the 'Fusion Backpack' product settings page. The 'Product Tabs' section is active, displaying a table of existing tabs and an 'Add Product Tab' button.

| ID | Title | Alias | Block Type | Sort Order | Selection Of Products | Status | Action |
|----|------------------|--------------------------|------------------------|------------|-----------------------|--------|----------|
| 1 | Details | product_info_description | Product Description | 10 | All products | Enable | Select ▾ |
| 2 | More Information | additional_info | Additional Information | 20 | All products | Enable | Select ▾ |
| 3 | Reviews | reviews | Product Reviews | 30 | All products | Enable | Select ▾ |

1. Switch to Catalog -> Products menu and click to edit the product that you want to add new tabs to.
2. Scroll down through the list of product settings until you find the Product Tabs option.
3. Click Ad Product Tab to create a new tab for that product. The list of tab settings is the same as used when creating new tabs for all products.
4. Once finished with the settings click the SAVE TAB button to create a new tab for that product.

FRONTEND OVERVIEW

■ SIMPLE TABS

Details More Information Reviews

So light and comfy, you'll love the Radiant Tee's organic fabric, feel, performance and style. You may never want to stop moving in this shirt.

- Salmon soft scoop neck tee.
- Athletic, semi-form fit.
- Flat seams prevent chafing.

Reviews v

You can customize your product page with tabs as you need. By default, we offer two tab layouts and six tab types, one of which is to be built with **Page Builder**.

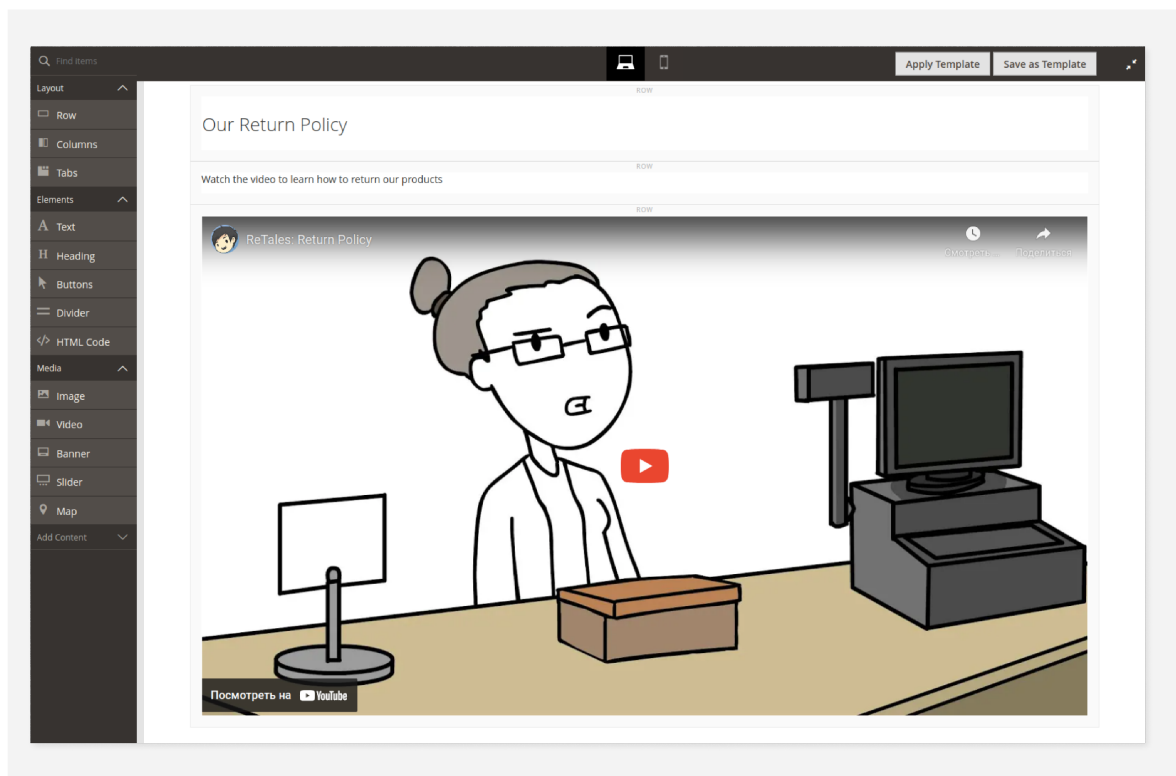

Layout Types

New product tabs can be displayed in two main layouts:

You can change the type in **Stores -> Configuration -> BeIVG Extensions -> Product Tabs**. There, you can also choose a setup to open only one tab in accordion layout, as it is shown on the screenshot above. Or you can choose to open all the tabs:

TYPES OF PRODUCT TABS

OUR MODULE ALLOWS CREATING FIVE TYPES OF PRODUCT TABS

HTML

This type of Tab can be modified by the **Page Builder**. You can add videos, sliders, widgets, and other elements to your tab.

Customer Reviews

Keeps me cool

Rating ★★★★☆ I like this shirt, it keeps me cool when I'm lifting. Would like a tighter fit though.
Review by Warren 6/15/23

Gets the job done. Even when I'm pouring

Rating ★★★★☆ Gets the job done. Even when I'm pouring sweat, this shirt maintains a nice dry feel. I think the sizing runs a little large, so order accordingly.
